SATURDAY, APRIL 14, 1893.

TIMELY WARNING.

Carson physicians have entered a protest against having any more public funerals of persons dying with the fever now raging in that city. They pronounce it the most malignant type of scarlet fever known, and consider it worse than smallpox. It is said that the remains of those who have died of it soon became as spotted as leopards, and many believe it to be a true type of spotted fever. The physicians recommend that the remains of the late Miss Marshall be buried in the night. It is certainly a disease that would seem to demand that every precaution be taken to prevent its spread. The medical fraternity of Carson have thus far been unable to make any headway in checking its ravages when its deadly fangs have once taken hold. Would it not be well for our citizens to take a step in time to keep it from our midst by having a general cleaning up of the streets, alleys, backyards and cellars?

EDITORIAL NOTES.

The English millers view with anxiety the constantly increasing imports of flour from the United States. Each year sees a larger proportion of exports of wheat sent abroad in the shape of flour, and American millers are steadily cutting the ground from under their English competitors. Flour is now shipped through to Liverpool and London under a blanket policy of insurance and on one bill of lading, and with the improvements made in American mills there is little doubt that our exports of flour will continue to increase in a greater ratio than those of wheat.

The Salt Lake Tribune says that a few days ago a young girl with her lover went to the Endowment House to be married, and was turned away by Brother Joseph with the statement that 35 marriages were being crowded that day, which was the full capacity of the institution. The fact was further ascertained that there never was a time when so many young girls were going into polygamy as at present.

W. H. Ellis, of the Central Pacific, is preparing a pamphlet which is to be published in English, French, German and Scandinavian, and circulated in Europe to promote immigration to California. Having perfected arrangements for bringing immigrants at low rates, the railroad company is doing good work in making California's merits known to the world.

It is suggested that the next Legislature of California should pass a law to regulate admission to the Bar which will require written examinations under similar safeguards as to secrecy and impartiality to those employed in the examination of applicants for teachers' certificates. The present oral examinations are a farce.

The people of Tuolumne county, Cal., are becoming exercised over the liquor license question. A movement is being made to make the license \$400 a year for saloons, or \$150 a quarter. Prominent business men, and even some of the saloon keepers at Mokelumne Hill, are booming the cause.

The postal cards are made at Holyoke, Mass., by 40 men, who turn out about a 1,000,000 daily. They have diminished the consumption of writing paper by from \$12,000,000 to \$15,000,000 a year.

The czar has ordered 400,000 brandy and liquor glasses for his coronation. He evidently intends to get the nihilists drunk, so that they will lose sight of the main object.

A Fatal Mistake.

DERMOTT, Ark., April 14.
 Six colored children went to a picnic in the woods. Gathering weeds for salad, they cooked them and put in strychnine for seasoning by mistake. All partook and to-day three are dead and the others dying.

FOREIGN TELEGRAPH.

[ASSOCIATED PRESS.]
The Trial and Conviction of Brady,
 one of the Phoenix Park Assassins.

DUBLIN, April 13.
 In the Brady trial, Dr. Webb, leading counsel for the prisoners, said he begged to submit a respectful protest against any evidence being allowed in the case which would bear upon the existence of a conspiracy prior to May 3d. Webb elicited various authorities running from the time of Edward I down to the present, and said: "All the prisoners were first arraigned before the tribunal on a charge of conspiracy. This was followed by the more serious charge of murder. I contend that such a combination of charges is unprecedented in the history of criminal cases." The court reminded Webb that the present indictment was not for conspiracy and murder, but a single indictment for murder. Dr. Webb, continuing, said: "An indictment for conspiracy to murder, your Honor, may only be based upon evidence going to show there were designs to murder some definite persons. The law regulating evidence as to aiders and abettors in cases of conspiracy could not be made to apply in the present case."

Judge O'Brien asked the jury to dwell on the evidence with that solemn consideration of its points which was due, and to decide whether any reasonable doubt existed as to the guilt of the accused. In making up the verdict they should set aside all prejudices, all weakness, that frequently influences our judgment and bias our words. He expressed the hope that they would not be influenced by evil inspiration.

The jury then retired. They did not remain long away, for after about 40 minutes they sent word back that they had reached an agreement, and being summoned to their benches announced, amid breathless silence in court, that James Brady was guilty of murder.

When the verdict was read a deep but suppressed murmur went round the court-room, and Brady, who up to this time had been singularly composed and free from emotion, turned pale. Dr. Webb started up to make a motion, and after complete silence had been restored and before the Judge pronounced sentence of death, he said in an impressive voice: "I desire to move for an arrest of judgment." He alleged that under the Act the jury which heard the case and just given in its verdict was not legally formed; that the prisoner had not received notice that he was to be tried before a special jury. The motion was denied by Judge O'Brien, who said to the prisoner:

"Have you anything to say why sentence of death should not be pronounced upon you?"

Brady responded in a loud, clear and firm voice: "I am not guilty of the charge which informers have sworn away the life of anyone to save their own."

The Judge then sentenced Brady to be hanged on the 4th of May.

Guarding the Queen.

LONDON, April 14.
 The Queen has finally decided to go to Osborne next Tuesday. In consequence of this intention of Her Majesty several detectives have arrived at Cowes. The authorities are extremely vigilant in scrutinizing suspicious persons and guarding against any danger to the Queen. They have arrested several persons, but the prisoners in all cases have proved to be innocent.

A Produce Panic in France.

PARIS, April 14.
 A wild panic was caused at the Produce Exchange by the death of Biedermann, one of the largest oil brokers in Paris. No quotations were made on exchange yesterday and a general collapse of the market is feared.

Looking Out for Number One.

LONDON, April 14.
 It is stated that the formal identification by Carey during his examination in the case of Joe Brady of Tynan's photograph as the picture of the man known as Number One has caused the Government to take active steps to secure Tynan's arrest. Four detectives have gone in pursuit.

From Panama—The Great Fire in Peru.

PANAMA, April 5.
 No further fighting has occurred among the canal laborers, and no further trouble is expected. The next importation of laborers will be from the Sandwich Islands.

The seven men imprisoned on suspicion of the \$50,000 robbery from the Panama railroad were set free, as there was no evidence against them.

Earthquakes are of almost daily occurrence, but no damage thus far has been done.

The fire at Iquique destroyed ten blocks, but did not reach the business portion of the city, stopping at the market place. All the offices and depots of the railway, the parish church, Fourth of July Hotel, Cable Co's offices and the private dwellings of Loraz, Jamieson, Dawson, Curvallo,

James, Massardo, Carlos, Gallagher and a number of others were burned to the ground. It is said that a vast amount of property rescued from the burning buildings was stolen. The loss is estimated at \$1,500,000, and 500 families are rendered homeless.

EASTERN DISPATCHES.

[ASSOCIATED PRESS.]
Wholesale Slaughter in an Iowa Family.

Dubuque, April 13.
 Charles Smith, a well-to-do farmer, living four miles north of Earlville, Iowa, went to his barn this morning, where two sons, aged nine and thirteen, were engaged at work, and killed them with an ax. Returning to his house with the same weapon he killed his wife, who was standing by the stove preparing breakfast. He then attempted to slay his two daughters, the only remaining members of the family, but they succeeded in reaching a neighbor's house safely, and gave an alarm. When they returned it was found that Smith had killed himself by cutting his throat with a butcher knife. No cause is assigned for the deed.

The Strikers' War.

SPRINGFIELD, Ill., April 14.
 There has been no trouble at the rolling mills since that of last night, reported in these dispatches. The men remain firm in their determination to remain at their posts, and many think the assault of last night will have an effect directly the contrary to what was anticipated. The firing party have not as yet been identified and no arrests have been made. Muklern, the most seriously injured man of the several who were wounded last night, is alive and will probably recover.

The Bricklayers' Strike.

CHICAGO, April 14.
 The Bricklayers Union asserts that only 40 workmen have thus far responded from outside the city to the call of contractors, and that of these 30 have been induced to join the army of strikers. It is further asserted that 33 contracting firms have accepted the demands of the Union and placed men at work, and that under the circumstances the workmen are masters of the situation. Work on all large buildings, however, is almost completely at a standstill.

The Newhall House Trial.

MILWAUKEE, April 14.
 George Scheller, accused of setting fire to the Newhall House, took the stand himself this morning and told the story of his life. He recited incidents of his connection with the Newhall and accounted for stock on hand in the bar-room. His testimony dovetailed with that of Bligham, who swore to finding him in bed on the fatal morning. Two additional witnesses were called for the prosecution and five for the defense.

The First American Iron Sailing Ship.

CHESTER, Pa., April 14.
 The Tillie E. Starbuck, the first iron sailing ship built in America, will be launched at Roush's yard to-day for W. H. Starbuck of the Pacific coast. The vessel is 278 feet long, 42 feet beam, 25 hold, 2,300 tons burthen, and has steel masts and bowsprit.

A Storm in the Hills.

DEADWOOD, April 14.
 There has been a heavy snow storm throughout this section the past six hours. The Black Hills & Pierre Railroad from Lead City to Pierre is blocked. Telegraph lines from various cities to the hills are down, and all the stages are blocked.

Chinese Base-Ball Strikers.

PHILADELPHIA, April 14.
 The Chinese engaged to play baseball, who struck for a salary of \$20 per week and expenses, have been allowed an advance, and practice for the tour is resumed.

WESTERN TELEGRAMS.

[ASSOCIATED PRESS.]
Visiting Knights to be Properly Entertained.

SAN FRANCISCO, April 13.
 At a meeting of the annual Conclave of the Grand Commandery of Knights Templar, of the State to-day, the Secretary of the Triennial committee reported the arrangements for the coming Conclave in a favorable state of progress, and stated particularly that eastern Commanderies need fear no lack of accommodations, as the committee will be able to provide for double the number likely to come.

A Brace of Suicides.

SAN FRANCISCO, April 14.
 Captain P. N. Hallon of the steamer Milton S. Latham, plying between this city and Donohue's landing, committed suicide in his stateroom this morning by shooting himself through the head. He has appeared somewhat demented for some days past.

An unknown man threw himself under a train from Berkeley to Oakland this morning and was instantly killed.

An exploding bomb started the Marquis of Lorne party in Boston yesterday. He probably thought the Fenian army was after him.

BRIEF TELEGRAMS.

[ASSOCIATED PRESS.]
Condensed Dispatches From All Over the World.

—The British frigate Terebos, with the Princess Louise on board, arrived at Newport, Rhode Island, this morning.

—The estimated earnings of the Central Pacific for March, 1893, were \$2,021,000; same month in 1892, \$1,900,000.

—The Pope have decided that no priest who has participated in the agitation in Ireland shall become a Bishop.

—It is reported that 2,000 persons have been arrested at Moscow for being engaged in plotting against the life of the Czar.

—A woman in Buffalo, New York, has sued a base-ball club for \$1,000 damages for a dislocated collar-bone, caused by a stray ball.

—The Metropolitan Board of Works of London recommended, on account of the danger to be feared from explosives, that workmen entering the sewers of London be carefully watched.

—The trial of Charles Bradlaugh in London, who, with the proprietor of the Free Thinker, is charged with publishing a sketch of the Delly and other blasphemy, has resulted in Bradlaugh being acquitted.

—A Tribune Cincinnati special says: T. Lloyd Williams, a wealthy Englishman of Devonshire, arrived here on Saturday and left this evening for California to claim a legacy of \$1,300,000 which was left him by his godfather. The visitor recently lost his mother and sister, and is now without relatives.

NEW TO-DAY.

LOC ROLLING.

While Wrestling With a Fallen Tree

a Lumberman Receives Con-

sequential Damages.

While on a hunting excursion in the great coal and wood region near Carbonado, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and Orestis Wipe is right in saying that all movements in unhandled labor are graceful, our friend William, stripped for his work and attacking a tree as Richard I. assailed the heavy doors of Front de Beun's castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which raised her up, she'd have crushed me flat. As it was, I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and if I hadn't heard of BENSON'S CAPSINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capsine took hold quick, and I'm 'bout as good as new. But there's one thing you kin kalkilate on: I shall never wrestle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushy logs I'd a been smashed, so you couldn't a sold me fur a door mat."

The Capsine is the thing for rheumatism. It doesn't keep you waiting. The word CAPSINE is cut in the center of the genuine. Price 25 cents.

 10 Horses, 4 Sets of Work Harness, 1 Set of Light Carriage Harness, 1 Buckboard (nearly new), 1 Rockaway, 1 Ranch Wagon (1½-inch axle), 1 Wagon (2-inch axle), 1 Dump Cart, 1 Plow, 1 Scraper, 3 Sets Stretchers, Chains, 1 Butter Worker, Milk Pans, etc., etc.
 Also the Household Furniture—Chairs, Tables, Bedsteads, Cook and Parlor Stoves, Carpets, Pictures, Mirrors, 1 Bryant Organ (cost \$250 two years ago), 1 Singer Sewing Machine, Dishes, Pails,

AND OTHER THINGS TOO NUMEROUS TO MENTION

TERMS OF SALE: \$20 and under, cash; all over \$20, 60 days' credit, with satisfactory indorsed notes payable to the First National Bank of Reno, with interest at 1½ per cent.

P. J. TOLL, Auctioneer. ROBERT McTAGGART.

MISCELLANEOUS.

TAILORING

ESTABLISHMENT.

MY REPUTATION AS A TAILOR is already established. "The Boss Tailor" lives in all country towns. They advertise shop-worn auction goods; they dispose of cloths not saleable in the larger cities, and are continually trying to mislead their patrons by false representations. Reno is no exception to the rule. She has a "Boss Tailor," but look at a suit made by the Virginia street "Boss" and you will immediately see the point.

JOTTINGS.

Minor Occurrences in and About Town.

Fine weather to-day—sheep bearers' delight.

Honey Lake flour sells by the load in Reno for \$21 per 100 pounds.

Al. Wiltzie of Sierra Valley came in yesterday with a load of fine butter.

The Hatch-Manning & Berry suit has been compromised and disposed of.

Watches and clocks at Nasby's. Thermometer at 7, 9, 11, 1, 3—35, 46, 52, 54, 57.

The high hills east of Reno have not had so much snow on them for two years, at any season.

W. B. Todhunter shipped ten carloads of beef cattle from Lovelock yesterday to San Francisco.

The boys of Washoe Hose Co., No. 2, intend giving a ball on the night of May 15. Help them along.

J. Hall keeps a splendid assortment of vegetables and country produce. Call at his Commercial Row stand.

Leadbetter received a lot of strawberries from California this morning; only 40 cents a box. They are good, but gee!

The new proprietors of the Fort Bidwell stage are making arrangements for a through line from Reno to Lakeview, Oregon.

Eight bars of bullion valued at \$17,000, from the Navajo mine at Tuscarora, went west last night by Wells-Fargo's express.

Johnny Belz issues a special invitation to his patrons to call and get rectified to-night or to-morrow. He has a Fourth-of-July edge on his razors.

Louis Dean and D. C. Wheeler shipped ten carloads of cattle below last night. Dean's went to Stockton and Wheeler's to San Francisco.

The grounds surrounding the Golden Eagle Hotel are being fixed up in a fine manner, and will be one of the prettiest places in Reno this summer.

Second-class travel eastward is very slim. People seem disinclined to leave the Pacific coast. The most of them going east are merely on a visiting tour.

John Hall requests all who know themselves indebted to the late firm of Hall & Painter to call at his Commercial Row store and settle their accounts. See 50-cent column.

The friends of temperance are requested to bear in mind that there will be a meeting at the ladies' reading-room this evening for the purpose of reorganizing the Reform Club.

A lovely line of new trimmings, laces, buttons, fringes and many other new goods are just being opened at F. Levy & Bros. Ladies will do well to give them a call and examine their stock.

There will be extra preparations for a fine dinner at the Palace to-morrow. Lemery & Fontaine are following up their business closely, and succeed in pleasing the patrons of the house. They will spread a feast to-morrow, all for four bits.

Hoffman's delivery wagon, with a horse in front, made a slow race against time up Plaza street this morning, but was captured at Sierra by Coroner Dickens, who held an inquest on the concern and fined the old man a keg of beer for not bitching the high-strung brute.

An old bach, who had long yearned to become the head of a family, the other day saw the sign of a grocer, "Families Supplied." Thereupon he ordered a fat wife and two children, stating that he had a preference for girls 16 to 20 years old. The old Mormon!

The new stock of clothing at the White House is something better than has been brought to Reno for some time. The goods, in fact, are of extra quality and make, and if Abrams Bros. can't make a man look well it is because he is hump-backed and wooden-legged.

Tom Clarke, the jolly engineer on the V. & T., has received a nigger singer suit from Boston. Last night he decorated himself gorgeously and paralyzed the people at the Palace with his magnificent apparel. He very much resembled Billy Burch in his celebrated character of "The Rag-Picker."

Chielovich & Co. have the largest stock of wines and liquors kept by any firm in Nevada, and all of first quality, which they sell at as low prices as possible. They do not deal in anything they are afraid to tell the cost of. The Wine House, everybody knows, is a first-class establishment. This can be seen by any casual visitor. It is one of the handsomest places on the coast.

Church Notices.

Services at the Congregational church at 11 o'clock A. M. and 7 in the evening. Sunday school at 12:15. All made welcome. A. B. Palmer, pastor.

Rev. W. R. Jenvey will conduct the usual divine services at Trinity church to-morrow morning and evening.

May in Sierra Valley.

Hay in Sierra valley is now selling for \$10 per ton, and is not plentiful, more than the usual quantity having been fed to cattle this winter. Heretofore the ruling price has been about \$6 per ton.

THE AGE OF SHEEP.

Something of Interest to the Wool Growers of this Section.

The books on sheep have seriously misled flockmasters on this subject. Almost any sheep owner will tell you that after a year the sheep gets a pair of broad teeth yearly, and if you show him that his own three-year-olds have four pairs of broad teeth, he can only claim that they are exceptions, and protest that they do not exceed three years of age. Now, these cases are no exception, for all well bred sheep have a full mouth of front teeth at three years old. Some unimproved flocks may still be found in which the mouth is not full until near four years old; but fortunately these are now the exceptions, and should not be made a standard, as they so constantly are.

In Cotswolds, Leicesters, Lincolns, Southdowns, Oxford-downs, Hampshire-downs, and even the advanced Merinos, and in the grades of all these, dentition is completed from half a year to a year earlier. The milk or lamb teeth are easily distinguished from the permanent or broad teeth by their smaller size, and by the thickness of the jawbone around their fangs where the permanent teeth are still enclosed. As the lamb approaches a year old, the broad exposed part of the tooth becomes worn away and narrow fangs projecting above the gums stand apart from each other, leaving wide intervals. This is even more marked after the first pair of permanent teeth have come up, overlapping each other at their edges, and from this time onward the number of small teeth and of broad permanent teeth, can usually be made out with ease. Another distinguished feature is the yellow or dark coloration of the fangs of the milk teeth, while the exposed portions of the permanent teeth are white, clear and pearly. The successive pairs of permanent teeth make their appearance through the gums in advanced breeds at about the following dates: The first pair at one year, the second pair at one year and a half, the third pair at two years and three months, the fourth pair and last pair at three years. It will be observed that between the appearance of the first two pairs there is an interval of six months, while after this each pair comes up nine months after its predecessor. For backward grades and the unimproved breeds the eruption is about six months later for each pair of teeth, but even with them the mouth is full at three years and six months.

MINING PROSPECTS.

A Probability that Pyramid and Peavine Districts Will be Revived.

It is pretty well assured that work will be revived in Pyramid before long. Something will be done on the Crown Prince mine; another shift is to be added to the working force of the Roma-Union, and the Jones & Kinkead tunnel, it is said, will be pushed on toward the vein, which, it is calculated, can be cut in about two months, when important developments are confidently looked for. Peavine will also take a spurt. This district has had all sorts of obstacles to contend against, but with a fair show it would become prosperous. It is probable that the clouds now hanging over it will soon be dispelled, so that it will have a chance to explain itself. There is any quantity of ore, identical with that at Downeyville, Nye county, which is easily worked by a proper process.

An Old Engineer Makes a Raise in Sheep.

Patsy Haley, who used to run a locomotive on this division, went east on No. 7 last night with 100 well-bred bucks from California, which he is taking to a range in Utah. He purchased a short time ago 11,000 sheep at Red Bluff, which will be driven through to Ogden as soon as the weather permits. Last year he drove 25,000 sheep from Idaho to Colorado. Considering that Haley has been off the road only four years he has done remarkably well, or else his perquisites were good while he handled the throttle.

A Hint from a Stock Man.

D. L. Shirk, a big cattle man at Stein Mountain, writes that the Winter in that section has been unusually mild, and that everything indicates an early Spring. He also says he has found it quite profitable to wean calves in the Fall. The hay they eat during the Winter does not amount to much compared to the loss sustained by not weaning.

The Succulent Cabbage.

If cabbages are set out one yard each way, nearly 5,000 can be grown on one acre. Such being the case, it is a profitable crop when successfully grown, as this vegetable not only sells well, but on account of its keeping qualities, affords green food in Winter for animals and poultry, to say nothing of the family.

Prof. Feracy's Dance.

To-night there will be a happy party at Kimball Hall. Professor Feracy gives his weekly soiree, which is patronized by all the ladies and gentlemen of Reno who love to dance. It is devoid of the formalities of a regular ball, and possesses all the enjoyments. Attend to-night and have a pleasant time.

RENO'S GROWTH.

What an Old Timer Sees After a Lap of Years.

Occasionally a complaint is heard that Reno is not what it used to be; that it is on the decline. If the growth of a town in the number of its buildings is any indication of prosperity, Reno cannot be going down. Should anyone, who was well acquainted with the town in 1873, and who had not seen it since that time, visit our riverside burg to-morrow, he would be nearly as badly confused to know where he was as would a stranger in New York City. The writer can remember when there was no such portion of Reno as the Western Addition, the house farthest west in the town proper being the residence of J. S. Shoemaker. Now that gentleman's dwelling is only one of hundreds of handsome residences which go to make up the so-called Western Addition. Since 1873 the Bishop's School for Girls has been built, and no matter how much the town may grow will always remain one of the first buildings to be observed by visitors to Reno. A few years ago the large area north of the C. P. track possessed but few buildings, of which Judge Webster's residence, on Fourth street, was one of the most remote from the business center. North of that was a large alfalfa field, owned by the Evans brothers. That portion of this young city has since been built up five or six blocks north from Judge Webster's. It contains the Catholic church, John Sunderland's, Donald McKay's, Dr. Wagar's and many other fine residences, and is known as the Evans Addition. The southern boundary of the town, less than 10 years ago, was marked by A. J. Hatch's residence; now it extends half a mile further out toward Steamboat. It is not difficult to remember when there were no houses east of the V. & T. R. R., on the south side of the river; now there is a continuous street nearly down to the County Hospital, quite half a mile distant from the railroad track. Beside these additions, the Pavilion, Odd Fellows' Hall, Nevada Theater, and numerous other new and improved buildings should be recalled as having been built during the last half-dozen years and tending to improve the importance of Reno as a business center.

Something Altogether New.

The latest invention in the line of entertainments is that known as the "Celestial Party." The floor of the hall which is to be the scene of the festivities is marked off into orbits, and numerous young ladies, handsomely and fancifully dressed to represent the planets, such as Ceres, Hygeia, Astraea, Vesta, Ariadne, Flora and Terpsichore, revolve and rotate through these orbits around a young man dressed in flame-colored habiliments to represent the sun, who discourses to his satellites in poetry and prose. Smith College has the honor of having originated this unique style of entertainment, which takes place when the young lady students have finished the study of astronomy. This would be a fine thing for Reno. We have girls enough to represent every planet, and there would be lots left to stand for planets on the outside and wink and blink at the young man in the middle if he got in too much of Swinburne's warm poetry.

The Trunk-Check Racket.

A successful thief on some of the railroads manages to sit near the traveler whose trunk he knows to be valuable. Then he tries to turn over the back of the seat, pretends to find some difficulty with the lock, and asks the victim for the loan of his check to slip down upon the catch, and so throw it out of place. While thus using the article he exchanges it for another, which he hands back without the trick being detected. At the end of the journey he loses no time in presenting the stolen check and getting away with the baggage to which it is attached.

Anniversary of Historic Events.

April 14, 1861—Fort Sumter, Charleston harbor, surrendered to the Confederates. The flag was lowered by Major Anderson, who hoisted it again on the 14th of April, 1865, and on the same day President Lincoln was assassinated at Ford's theater, Washington, by J. Wilkes Booth, and the life of Wm. H. Seward, Secretary of State, was attempted by Surratt and Payne.

Auction Sale of Farm Stock, Implements, Etc.

There will be an extensive sale at auction, on Thursday, May 3d, at Gates' ranch on the meadows, of cows, horses, harness, wagons, farm implements, household furniture of all kinds, a Bryant organ, and many other things both necessary and useful on a farm or in any household, all of which will be sold without reserve.

A Nickel Party From Boston.

The first Raymond excursion party of the season from Boston left Chicago last Monday and will probably be along here to-morrow or next day. The company numbers about 150 ladies and gentlemen of "extreme culchaw," who will no doubt circulate nickels with a prodigality commensurate with their ideas of New England economy. P.

TEXAS CATTLE NOTES.

Price of Cattle South—Interesting Item for Stockmen.

A correspondent of the Chicago *Drivers' Journal*, writing from Jack county, Texas, gives the following interesting Texas cattle notes: Stock cattle are very high; they are worth \$20 around, and are very scarce of sale at that. Coming yearlings worth from \$12 to 13.50; coming two's, \$15 to \$17; three's, \$20 to \$22.50; cows with calves, from \$30 to \$35.

Some folks are getting a little uneasy about high prices; they are afraid there will be a relapse in the cow trade, but I don't see anything to cause anything more than fluctuations of the market. We don't deny that cattle are clear out of season, according to prices of by-gone days, but they must remember as the world moves she accumulates more meat-eaters, besides our demand is getting to be a great deal larger on account of some of our best cattle producing States being entirely fenced up into small farms (as well as large ones), which takes off a large amount of cattle on the account of a great many being small farmers who are not able to own land enough to afford pasture for stock, and consequently raise grain instead.

And another thing, the greatest of all, our Western and Southern ranchmen have been introducing graded bulls into their herds, which have improved their cattle from one-third to one-half, so far as beef qualities are concerned, which makes them from 30 to 50 per cent. better than the long-horns. Cattle are wintering very well in these parts, loss very light. Grass a little backward, but growing fast now. The increase will be unusually large this year. The range is covered with young calves now.

New Patents.

Dewey & Co.'s Scientific Press Agency has official reports of the following patents issued April 3: Geo. W. Bedbury, Portland, Or., car axle; John Feess, Marysville, Cal., sulky harrow; R. Gibbons, Alameda, Cal., attachment for transits; Geo. K. Gleason, Woodland, Cal., self-regulating windmill; E. J. C. Kals, Yolo, Cal., washing machine; J. C. Martin, Tuscarora, Nev., miner's candlestick; Jas. Porteous, Fresno, Cal., dirt scraper; Simons & Adams, San Francisco, magazine gun; Geo. W. Thissell, Winters, Cal., coddling moth trap; F. S. Waterhouse, Sacramento, electric arc lamp; W. E. Wild, Candelaria, Nev., machine for re-boring cylinders; W. E. Wild, Candelaria, Nev., boring, drilling and facing machine; W. E. Wild, Candelaria, Nev., grain-cleaner, separator and grader.

Regulating the Fleece to the Necessities of Sensitive Mutton.

Uncle Jake McKissick, who has sheep at Secret Valley, Lassen county, reports them as having wintered well, with the exception that coyotes were troublesome. Fifty to sixty of the pests were killed by poison and the bullet, but still they come. He does not intend to shear his sheep until after the young lambs have attained strength. He humanely prefers to lose a little wool to losing many sheep in consequence of too early shearing, feeling that it is better to wait for the winds to be tempered to the necessities of the shorn sheep.

SUICIDE.

A Hard Way of Quitting This Life.

A man named James Moore suicided at Lovelock's yesterday by cutting his throat with a large pocket knife, completely severing the jugular vein. Moore had been in the employ of E. C. Ashe. He had been drinking heavily for several days, and that is the only reason which can be assigned for his committing the rash act.

P. N. Marker's Condition.

Senator Marker is in a serious condition. His arm is much swollen and suppuration has commenced at the upper fracture. This gives the case a serious aspect and causes his physicians to entertain grave doubts as to the final result. Blood-poisoning is now the chief obstacle to combat, and the one most dreaded.

In the Justice's Court.

John O'Neill and P. F. Pergue, "boys in the alley," arrested last night by officer Mereson for living in a dissolute manner, together with Michael Whaland, the professional drunk, were this morning allowed time to skip the town, and they skipped inconspicuously. They will inflict themselves upon the easy-going Comstockers.

The Savings Bank Case.

L. L. Crockett and James H. Kinkead appeared in the District Court at 2 o'clock this morning to answer to the charge of embezzling the funds of the late Reno Savings bank. They entered a plea of not guilty. Judge Boardman set the time of trial April 24, at 10 o'clock.

Special Meeting.

Of Reno Encampment No. 5, Monday night, April 16. All members and sejourning patriots requested to meet with us, as there will be work in the 2d and 3d degrees and business of importance. C. D. NOYES, C. D.

OFF FOR WOOD RIVER.

Thoughtless Men who Leave a Good Thing Near Home.

A great many are going to Wood River. A dozen or more left for that much-lauded country this morning, to prospect and make fortunes. It is singular that men are so prone to stray off into inhospitable regions and leave a country possessing so many attractions as that immediately south of us, where there is a good climate and every facility for prospecting which a poor man could desire. Silver Glance, Sweetwater, Old Mono, Homer, Bodie, Jordan and Prescott districts can show more to attract an intelligent prospector than any other section on the face of the earth; and all along the line of the Carson & Colorado road there is a succession of mineral belts that offer more inducements to independent labor than a dozen Wood Rivers. But "distance lends enchantment," and the farther from home a new country is the more a man thinks he will make—until he gets there.

PERSONALS.

Brief Mention of the Movements of Notables and Others.

G. W. Todhunter is in town. Irvin Ayres is in town from Fort Bidwell.

Ex-Governor J. H. Kinkead is in town to-day.

F. H. Lindsay, Long Valley, is in town to-day.

Miss Lillie Putman of Carson returned home yesterday.

Jim Doherty has returned from a cattle trip to California.

E. B. Rail, the old-time Carson merchant, went west last night.

Tule Frank took the trail to-day for his home in Winnemucca valley.

Uncle Jake McKissick returned to his possessions in Long Valley to-day.

John Snodgrass of Long Valley made his semi-weekly trip to Reno to-day.

Major Foulks of Verdi is in town, at the Palace.

John L. Crow of Clover valley left town to-day with a wagon load of supplies for his ranch.

F. C. Uplike, who has been sick or the past few weeks, is better and will soon be able to attend to business.

Mrs. Joseph Todman left Carson last Thursday evening on a visit to her daughter, Mrs. C. C. Goodwin, of Salt Lake.

A large number of the friends of Miss Lillie Ordway paid her a visit at her mother's residence, on Fourth street, last evening.

Miss Ida Marshall, a young lady highly esteemed by everyone who knew her, died in Carson Thursday night of scarlet fever.

Samuel Painter, Ed. Haley and Frank Hostetter were of the number of teamsters arriving from Honey Lake valley last evening, loaded with grain and flour.

THE J. & K.

A Brighter Outlook for Pyramid Mining District.

The owners of the Jones & Kinkead mine have determined to disincorporate and form a new company under a name to be hereafter selected, and allow all the stockholders who so desire to come in under the new corporation; then levy an assessment of 90 cents per share to release the property of its financial embarrassments. After this is accomplished a contract will be let to superintendent Boyle of the Alta to complete the tunnel now partly run, drain the mine and get it in condition to work. This is a move in the right direction, and it is about the only way to succeed to make that valuable property ever worth a dollar. The new company will be organized at once.

"The Dark Squeeze Waltz."

The Appeal says: "The 'dark squeeze waltz' is all the rage in Reno. You turn out the gas, close the stove damper and strike up the music." It's no use, Sam, to try to work up that dance in Carson. The grasshopper style of waltzing, excusable only in a Carson girl, gives you trouble enough to keep them off your feet under the brightest gaslight. Turn a few of them loose in a dark room and your shoemaker would soon have to find a new gunboat model.

ICHI BAN doubled in size is the largest Japanese sale exhibition in the world. Shattuck & Fletcher export their printing inks to Japan, receive Japanese goods in return, pay for their advertisements with printing ink, and this is why Ichi Ban exists on low prices. Logical, isn't it? Wholesale and retail. Goods for every branch of country and retail trade. may 1
